PROFESSIONAL SUMMARY

Results-driven Data Analyst with hands-on experience in digital transformation and business intelligence projects. Skilled in SQL, data modeling, KPI tracking, and dashboard development using Apache Superset, Power BI, and Tableau. Proven ability to translate complex datasets into actionable insights that support executive decision-making and improve operational performance. Seeking to leverage analytical and strategic thinking skills to grow into a Business Intelligence or Data Strategy leadership role.

Areas of Professional Expertise

• Data Analysis & Data Modeling
• Dashboard Development (Apache Superset, Power BI, Tableau)
• SQL & Database Management
• Reporting Automation & KPI Tracking
• Business Intelligence & Strategic Insights
• Digital Transformation Initiatives

PROFESSIONAL SKILLS DEMONSTRATED

Great Cairo Water Company
2020 – Present
Data & Digital Transformation Specialist
Responsible for data management, reporting systems development, dashboard creation, and supporting digital transformation initiatives across multiple departments. Leading data-driven decision support and process automation efforts**.**

• **Business Intelligence & Dashboard Development:** Designed and implemented executive dashboards using Apache Superset and Power BI to support decision-makers across departments, improving visibility of KPIs and operational performance.
• **SQL & Data Management:** Developed complex SQL queries and structured reporting datasets to generate automated daily reports used organization wide.
• **Reporting Automation:** Built and deployed automated reporting systems adopted by employees for daily operations, reducing manual processing and improving data accuracy.
• **Data Documentation & Governance:** Created full documentation for departmental databases, enhancing data organization, clarity, and long-term maintainability.
• **Digital Transformation Initiatives:** Contributed to internal process automation systems and digital workflow improvements aligned with organizational transformation goals.
• **Leadership & Team Management:** Promoted to Team Leader, supervising a technical support team, coordinating cross-departmental data requests, and ensuring timely issue resolution.

VOLUNTEERISM

Cairo Water Company – Executive Data & Digital Transformation Trainer (2023 – Present)

- Delivered executive-level training sessions to sector directors, branch managers, and the company chairman on dashboard utilization and KPI interpretation, supporting data-driven decision-making across 25+ branches and departments.
- Led structured training programs for 300+ employees on newly implemented digital transformation systems, accelerating enterprise-wide system adoption and improving operational workflow efficiency.
- Conducted quarterly executive workshops presenting statistical performance reports and operational status across branches and sectors, enabling leadership to evaluate trends, identify gaps, and support strategic planning decisions.
